Where a single bill is rendered for multiple lines, the total applicable fee amount may appear as a single line item on the bill.

(D) Except as specified in the applicable county Enhanced 9-1-1 ordinance, the Enhanced 9-1-1 fee shall be applied to each telecommunications line that is configured so as to receive dial tone from the end office serving the line. The following are considered telecommunications lines for the purposes of application of the Enhanced 9-1-1 fee:

- (1) Tariffed and special assembly access lines, both business and residence;
- (2) Semi-public telephone service access lines;
- (3) Access lines connected to customer owned public telephones;
- (4) PBX trunks;
- (5) CENTREX lines, with the proviso that, except where specified otherwise in a county Enhanced 9-1-1 ordinance, a PBX trunk of the equivalent of eight (8) CENTREX lines to one (1) PBX trunk shall be used for fee application. Fractional amounts shall be rounded up to the nearest whole cent amount. For example, where the fee is \$1.75, each CENTREX line would be billed \$0.22 unless the applicable county Enhanced 9-1-1 ordinance specified otherwise.
 - (a) Application of the CENTREX 9-1-1 fees is done on an account by account (per county) basis, Within a given county, location of the CENTREX lines' customer termination points is irrelevant as long as all of the lines are on a single account.

2.1 Undertaking of the Company, (Cont'd.)

2.1.9 Billing, Collection, Dispersal of Enhanced 9-1-1 Fee, (cont'd.)

(D) (continued)

(5) (continued)

(b) For example, if a subscriber has 5 service locations in Alpha County (for this example, Alpha County charges the full 9-1-1 fee [which is \$2.00 in the example] for the first 8 CENTREX lines and 1/8 of the fee for additional CENTREX lines) and has 4 CENTREX lines at each location and only one account, he or she will pay 8 times \$2.00 + 12 times \$0.25 (\$0.25 or 1/8 of the full Alpha County business 9-1-1 fee of \$2.00) for a total of \$19.00 per month. If the customer has a separate account at each location he or she will pay \$2.00 times 4 on each of the 5 accounts for a total monthly payment of \$40.00. In this example, if one of the 5 locations is in another county, the 9-1-1 fee must be figured on those 4 lines separately even if all 5 locations are on a single account. This would reduce the Alpha County 9-1-1 monthly fee total to 8 times \$2.00 + 8 times \$0.25 for a total of \$18.00. The total monthly 9-1-1 fee paid by the multi-county customer would be that \$18.00 plus whatever the fee amount would be for the location in the other county.

(6) Lines used by the Company for official business and Company public telephone lines shall be exempted from otherwise applicable Enhanced 9-1-1 fees.

2.1 Undertaking of the Company, (Cont'd.)

2.1.9 Billing, Collection, Dispersal of Enhanced 9-1-1 Fee, (cont'd.)

- (E) Company shall remit to the county, in the manner specified by the County Commission (e.g., mailed check, electronic fund transfer, etc.) and by the last business day of each month (unless the County Commission specifies in writing that less frequent remittance of Enhanced 9-1-1 fee revenues is acceptable), all Enhanced 9-1-1 fees collected by the Company for such county during the preceding month or otherwise applicable period, less a billing and collection fee of 3% of the monies collected. The County Commission may, upon 60 calendar days notice to the Company, change the manner in which the frequency whereby and/or the recipient to which the Company remits Enhanced 9-1-1 fee revenues to the county.

SECTION 3.0 - DESCRIPTION OF SERVICE

3.1 Introduction

BTI will provide Local Exchange Service throughout the Bell Atlantic serving area within the State of West Virginia. BTI will resell many of the underlying carriers' services that are eligible for resale.

BTI resells business, residential, PBX trunks, and optional services of the ILEC.

Resold features associated with resold local exchange service will be priced according to the rates established for such features in the ILEC's effective intrastate tariffs, together with applicable discounts. The rates for specific resold services are set forth in Section 4 - Rates.

The Company concurs in the rules and regulations, including all footnotes thereto, applying to and governing local exchange telephone service (hereinafter referred to as Exchange Access Service) as set forth in applicable ILEC tariffs on file with and approved by the West Virginia Public Service Commission, and in any amendments thereto as authorized by the West Virginia Public Service Commission or applicable law. The Company does not concur in the rates of the ILEC. The Company's rates are set out in Section 4 of this tariff.

The Company reserves the right to cancel and make void the above concurrence statement, subject to the requirements of the West Virginia Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

SECTION 3.0 - DESCRIPTION OF SERVICE, (CONT'D.)

3.2 Charges Based Upon Duration

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

3.2.1 Calls are measured in durational increments identified for each service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.

3.2.2 Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.

3.2.3 Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.

3.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.

3.2.5 All times refer to local time.

3.2.6 Computation of Charges

For the computation of charges, the duration of each call is measured and rounded up to the applicable billing increment, then multiplied by the applicable rate and if the computed charge for any individual call results in a fraction of a cent, the fraction is then rounded up to the next whole cent on a per call basis. For example, a service may provide that each call will be charged a minimum of 18 seconds and thereafter timed in 6-second increments; therefore, under this example, a 10-second call will be rounded up to 18 seconds (0.3 minutes), and a 44-second call will be rounded up to 48 seconds (0.8 minutes). If, after multiplying the billing increment by the applicable rate, the computed charge for an individual call results in a fraction of a cent, the fraction is rounded up to the next whole cent (for example, \$1.523 would round up to \$1.53). Once the charge for each call is computed as described above, the calls are summed on the Customer's invoice.

SECTION 3.0 - DESCRIPTION OF SERVICE, (CONT'D.)

3.3 Charges Based Upon Distance

Where charges for a service are specified based upon distance, the distance is determined in the following manner:

3.3.1 Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as referenced in the Local Exchange Routing Guide issued by Bellcore, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). The airline distance between any two rate centers is determined as follows:

Step 1: Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.

Step 2: Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.

Step 3: Square the differences obtained in Step 2.

Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

These charges are in addition to the Directory Assistance charge for determining the telephone number requested by the Customer and in addition to any applicable Operator Service charges associated with placing the call.

This service is available where facilities permit and may not be available to all Customers.

4.10 Expedited Order Charge

4.10.1 General

When placing an order for service(s), as defined in 4.10.2 below, for which a Standard Interval exists, a Customer may request a Service Commencement Date that is earlier than the Standard Interval Service Date, in which case an Expedite Charge will apply. The Expedite Charge will not apply if the new Service Commencement Date is more than five days from the date of the request to the Company of the expedited order request. The request for an earlier service date may be received from the Customer prior to the issuance of an Service Order, or after the Service Order has been issued but prior to the service date. The Company has the exclusive right to accept or deny the Expedite Order request. However if, upon reviewing availability of equipment and scheduled workload, the Company agrees to provide service on an expedited basis and the Customer accepts the Company's proposal, an Expedite Charge will apply.

In the event the Company provides service on an expedited basis on the Customer's request, and the Customer delays service or is not ready for delivery of service at the time of installation, a Service Date Change Charge will apply in addition to the Expedite Charge.

In the event that the Customer cancels an expedite request, the Expedite Charge will be added to any applicable Cancellation Charge specified herein.

An Expedite Charge will not be applied to orders expedited for Company reasons.

If costs other than additional administrative expenses are to be incurred when the Access Order is expedited, the regulations and charges for Special Construction as set forth in this Tariff will apply.

SECTION 6.0 - TOLL PRESUBSCRIPTION

6.1 General

Toll presubscription is a procedure whereby an end user or a Pay Telephone Service Provider may select and designate a Toll Provider (TP) to access toll calls without dialing an access code. The end user or Pay Telephone Service Provider may designate a TP for intraLATA toll, a different carrier for interLATA toll, or the same carrier for both. This TP is referred to as the end user or Pay Telephone Service Provider preferred toll carrier (PIC).

Each carrier will have one or more access codes assigned to it for various types of service. When an end user or Pay Telephone Service Provider selects a carrier as its preferred toll carrier for a telephone line, only one access code of that carrier may be incorporated into the switching system of the Telephone Company permitting access to that carrier from that telephone line by the end user or Pay Telephone Service Provider without dialing an access code. Should the same end user or Pay Telephone Service Provider wish to use other code-dependent services of the same carrier, it will be necessary for the end user or Pay Telephone Service Provider to dial the necessary access code(s) to reach that carrier's other service(s).

A TP must use Feature Group D (FGD) Switched Access Service to qualify as a toll provider. All TP's must submit a Letter of Intent (LOI) to the Telephone Company at least forty-five days prior to the date on which the carrier proposes to begin participating in toll presubscription.

Selection of a TP by an end user or Pay Telephone Service Provider is subject to the terms and conditions in Section 6.2, following.

SECTION 6.0 - TOLL PRESUBSCRIPTION, (CONT'D.)

6.2 Presubscription Change Application

6.2.1 Initial Free Presubscription Choice for New Users

New end users or Pay Telephone Service Providers will be asked to select a primary TP when they place an order for Telephone Company Exchange Service. If a customer cannot decide upon a toll carrier at the time, the customer will have thirty calendar days following completion of the service request to make a PIC choice without charge. In the interim, the customer will be assigned a "No-PIC" and will have to dial an access code to make toll calls.

The free selection period available to new end users or Pay Telephone Service Providers is the period within thirty days of installation of the new service.

Initial free selection available to new end users or Pay Telephone Service Providers are:

- (A) Designating a TP as their primary carrier, thereby requiring no access code to access that TP's service. Other carriers are accessed by dialing 101-XXXX or other required codes.
- (B) Choosing no carrier as a primary carrier, thus requiring 101-XXXX code dialing to access all TP's. This choice can be made by directly contacting the Telephone Company.

Following an existing end user's or Pay Telephone Service Provider's free selections, any change is subject to a nonrecurring charge, as set forth in Section 6.6.1, following.

6.2.2 Charge for Toll Presubscription

After expiration of the initial free presubscription choice period for new customers, as specified in Section 6.2.1, the end user or Pay Telephone Service Provider will be assessed a toll presubscription charge as specified in Section 6.6.1, following.

6.2.3 Cancellation of Toll Presubscription by a TP

If a TP elects to discontinue Feature Group D service after implementation of the toll presubscription option, the TP is obligated to contact, in writing, all end users or Pay Telephone Service Providers who have selected the canceling TP as their preferred toll provider. The TP must inform the end users or Pay Telephone Service Providers that it is canceling its Feature Group D service, request that the end user select a new TP and state that the canceling TP will pay the PIC change charge, as provided in (F)(1), following. The TP must provide written notification to Business Telecom, Inc. d/b/a BTI, that this activity has taken place.

6.3 End User/Pay Telephone Service Provider Change Discrepancy

6.3.1 When a discrepancy is determined regarding an end user's designation of a preferred toll carrier, the following applies depending upon the situation described:

A signed letter of authorization takes precedence over any other order other than subsequent, direct customer contact with the Telephone Company.

When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date determines customer choice.

6.3.2 Verification of Orders for Telemarketing

No TP shall submit to the Telephone Company a PIC change order generated by outbound telemarketing unless, and until, the order has first been confirmed in accordance with the following procedures:

- (A) The TP has obtained the customer's written authorization to submit the order that explains what occurs when a PIC is changed and confirms:
- (1) the customer's billing name and address and each telephone number to be covered by the PIC change order;
 - (2) the decision to change the PIC to the TP; and
 - (3) the customer's understanding of the PIC change fee; or

- (C) An appropriately qualified and independent third party operating in a location physically separate from the outbound telemarketing representative has obtained the customer's oral authorization to submit the PIC change order that confirms and includes appropriate verification data (e.g., the customer's date of birth or social security number).

6.4 PIC Switchback Options

6.4.1 Customer denies requesting change of TP:

When the Telephone Company is contacted by an end user who denies requesting a PIC change, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous TP at no charge.

The TP is in no way relieved of the FCC requirements for:

- (A) Verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or
- (B) Instituting steps to obtain verification of orders submitted to Hardy Telecommunications, Inc.

In addition, the end user has the option of initiating a complaint to the FCC or the Public Service Commission concerning unauthorized changes in carrier. The complaint may be issued in writing to the Public Service Commission of West Virginia, 201 Brooks Street, P.O. Box 812, Charleston, WV 25323, or by calling toll free 1-800-344-5113.

6.4.2 Customer requests switchback to previous TP PIC:

When the Telephone Company is notified via a call from the customer, where the end user is not denying the authenticity of the most recent change to the current PIC, the Telephone Company will change the customer's TP to the previous PIC. The customer will be billed the PIC charge as specified in Section 6.6.2, following.

6.5 PIC Freeze Option

A PIC Freeze option is available to customers who wish to "freeze" their PIC in an effort to prevent unwanted PIC changes. The customer must notify the Telephone Company and sign a PIC Freeze Authorization Form that notes the carrier that the freeze applies to. The customer may "lift" the freeze by using a three-way call between the carrier, the customer, and the Telephone Company. If the customer changes the PIC, a new form will need to be completed for a freeze to be applied to the new PIC. The freeze will be completed and maintained without charge to the customer.

The Reterm Promotion credit depends on the type of services renewed and the length of the renewal term. The credit does not include long distance usage charges, international usage charges, directory assistance, regulatory charges, surcharges, taxes, and other fees.
